WEBSITES

Cecil-Thomas.com - Built using React.js with Typescript. Over 80% unit test coverage. Uses a custom built terminal-like interface to allow the users to execute commands to learn more about myself, and projects that I have worked on.

Journeys.Cafe - Built using React.js, Node.js, and postgres. Hosted using Netlify and Supabase (Auth and db). Full CI/CD pipeline that allows me to push out new changes and features in less than a minute. Steadily growing user base. Over 60% unit test coverage.

Frozenspade.Tv - Built using React.js and hosted on Netlify. Uses the SpeedRun.com api to pull in data on currently held world records for the Twitch streamer "Frozenspade". Full CI/CD pipeline between GitHub and Netlify to allow for rapid deployments.

EXPERIENCE

Entrata, Lehi — *Software Developer 1*

March 2021 - Current

- Led the prototyping and development of the first new features using React/Typescript to speed up the user experience.
- Worked on projects that refactored the codebase for maintainability.
- Added unit test coverage using the PHPUnit framework.

Entrata, Lehi - *Software Development Manager*

June 2020 - March 2021

- Managed a project to remove a dependency on a third-party api, and replace it with our own custom built micro-service. Which saved thousands of dollars.
- Worked with my teams to reduce the open bug backlog from over 100 to less than 20.
- Facilitated development of new products that leveraged machine learning.

EDUCATION

DevPoint Labs, Salt Lake City

Aug 2019 - October 2019

SKILLS

ReactJS

NodeJS

C#

PostgreSQL

AWS

Ruby on Rails

PHP
