Detailed and Focused Web Developer, who likes to build cool things.

WORK EXPERIENCE

MRIoA, Salt Lake City — *Web Developer*

May 2024 - Current

- Worked on projects to convert older C++ native apps into web apps using React and Node.js.
- Introduced build tools for React apps that improved build times by 50+%.

Entrata, Lehi — *Software Developer 1*

March 2021 - October 2023

- Led the prototyping and development of the first new features using React/Typescript to speed up the user experience.
- Worked on projects that refactored the codebase for maintainability.
- Added unit test coverage using the PHPUnit framework.

Entrata, Lehi - *Software Development Manager*

June 2020 - March 2021

- Managed a project to remove external dependencies and move to an in-house solution, saving thousands of dollars.
- Worked with my teams to reduce the open bug backlog from over 100 to less than 20.
- Facilitated development of new products that leveraged machine learning.

WEBSITES/PROJECTS

Journeys.Cafe - A web app that is built with React, Node, Go, Postgres, and SQLite. Full CI/CD pipeline to allow for builds to be pushed to productions in less than 2 minutes. Helps users build out the best travel itineraries possible.

WashCast - A mobile app that was built using React Native and Expo. Gives an opinionated view of the weather to help the user determine the best day to go wash their car.
